

TO: All Shareholders:

March 13, 2020

As of this date, all Palm Worth social gatherings and sponsored parties are cancelled. This is in keeping with all the official and medical advice given that the spreading of the coronavirus can be contained by limiting the gathering of groups of people. Especially vulnerable are senior citizens. We ask everyone to be especially aware of the seriousness of this situation. In addition, I have instructed Kevin to wipe down daily all areas of the building such as the laundry room, mailboxes, railings, elevators, etc. on a daily basis with cleaners available such as Clorox. Therefore, the importance of leaves on walkways, etc. are not a priority.

In addition, at this time we have not been officially notified of the date the Fire Department will be doing the testing of our Alarm System. Since portion of this test will involve the "loud" siren, which is barely bearable, we will send out and post that date when available so shareholders can make plans to be off the premises during the test. Palm Worth, though attempted to change this test until summer, was not able to do so since we were past due for this inspection.

We hope everyone will understand the importance of protecting our shareholders whenever possible.

Thanks,

Juanita Leary
Pres., Palm Worth BOD
