

TO: All Shareholders.

17 June 2020

We were informed today that Kevin who came down with an illness this past Friday has tested positive for the Coronavirus. He is in JFK Hospital. Our thoughts and prayers are with him for a speedy recovery.

We have arranged for Sami, known to many of us at Palm Worth, and her husband to take over the maintenance of the Palm Worth facility until such time when Kevin will be able to return. Both are experienced in maintenance. It is our intention to continue with personnel on the premises 5 days a week. Preparations will be necessary in the next few weeks for the hurricane season involving storing pool furniture, etc. and making sure all porch windows are secure. In addition, Nichole will be available for additional time if necessary.

This has been a trying time for all of us. Please understand the conditions in Palm Beach County have not stabilized but are showing an increase in coronavirus cases.

Thanks,

Juanita Leary,
Pres., Palm Worth
Board of Directors
