

TO: All Shareholders.
September 2020

6

I have been notified by our Attorney that the State of Emergency in Florida has been extended by the Governor until November 3rd. Therefore, all restrictions outlined previously for visits as well as any unnecessary contract work will continue to apply. In addition, the requirement for masks and social distancing remains in effect. For clarification, immediate family members include shareholders, their spouses, and their children. It does not include nieces, nephews, aunts, uncles, nor friends.

And, it is important if you are planning to arrive at Palm Worth that you notify our manager, Nicole, to preclude any confusion as to who is at Palm Worth. This notification also applies to anyone needing or planning maintenance to their unit.

This has been a trying time for all of us and I appreciate that the majority of our shareholders understand the complications and adjustments that we must endure to be sure all of our shareholders are protected and safe from this virus.

Thanks to everyone for your thoughts and prayers following my second knee surgery. It has been a long 6 weeks but like the coronavirus I am sure "this too will pass"!!

Stay safe and healthy.

Juanita Leary
Pres., Palm Worth BOD
