

TO: All Shareholders.

5 February 2021

Early this morning Palm Worth lost not only a Board member who served so diligently as our Secretary but a dear friend. Marian Day through the years here as a full time resident contributed so many hours in protecting Palm Worth, supporting the need for an in-house presence while we fellow board members are north for the summer. As our Board Secretary, she maintained our voting records as well as performed the many requirements and assignments/needs of Palm Worth.

I often wondered whether, when she saw my many calls coming through on a regular basis, there was an urge to simply ignore them. BUT - she never did and always responded so willingly to my questions and concerns.

I had the privilege of having a fairly long visit with Marian the afternoon before her passing and am so grateful for having that time to exchange thoughts, concerns, and goodbyes.

Marian was a very unique individual. When her obituary is available I will forward to all the shareholders. I often mention the importance in what makes Palm Worth a special community is its combination of shareholders from all parts of the country with all their unique personalities and backgrounds.

Thank you Marian for all you contributed.

Sincerely,

Juanita Leary
Pres., Palm Worth
Board of Directors
