

Hello all,

I hope 2022 is treating you well!

I wanted to let you all know that I am getting married on Sunday, May 1st and will be leaving the day after (Monday, May 2nd) for a 9 day honeymoon! I will return to Palm Worth on Thursday, May 12th.

Please keep this in mind when scheduling AC maintenance, contractors etc as I will not be here to help let them in. My summer hours will take effect Monday, May 16th, where I will work Monday/Wednesday and Fridays from 11-4:00.

Also, I wanted to remind you all of the many projects that will be taking place this summer here at Palm Worth. The living fence around the pool (ficus bushes) will all be removed and replaced in the middle of May and the pool will need to be closed. The estimated time frame for this work is about a week.

There will be gasket work done to tier 13/14 on the north side of the building which will involve a lift on the north side while they complete the work. This project is estimated to begin the second week of May.

The elevator modernization will also take place sometime this summer, we are hoping to begin around June/July. The south elevator will be repaired first, but will be down for many weeks.

If you still plan on a trip to Palm Worth this summer, or plan on having guests/family stay in your unit, it is very important that you inform me of their arrival dates with all of the summer construction taking place.

Enjoy your summer!
