

Shareholders,

As we work through the 2023 budget, the Board is considering terminating Comcast's bulk cable services which would mean that those current fees would be removed from your monthly dues.

To help with the decision process, *please respond back to this email* if you are paying for any additional services (outside of the basic cable that PW provides) including DVR, additional channels and or internet.

Please respond back within the next week so that we can finalize the budget.

--

*Thank you,*
