

TO: All Shareholders.

9 November 2022

Palm Worth is anchored down for the Ordered Evacuation of the island in preparation for the Tropical Storm/Possible Category 1 Hurricane.

I have asked Nichole to attach the photos of the work Kevin, with the assistance of Gary Hower and Glenn Keller, did to make sure Palm Worth is prepared for the worst.

Most importantly, I specifically asked that the photo of the front ocean lawn and beach be included to stress the importance of our dunes in protecting our property. I believe at this point there is no sandy beach but as in the past hopefully our dunes and wall will protect our building.
