

Shareholders,

Following up from the email I sent out on Tuesday regarding the issues we have been having with Public Works not picking up all of our recyclables.

This morning I came in and specifically went over to check on the recycle area as the last pick up was Monday and found a very large pile of boxes, most of which are not broken down.

I have contacted the supervisor today as they once again only took what fit into the recycle bins, *however*, Public Works has expressed to me, as I have expressed to all of you, they will not take large boxes that are not broken down.

Please see the attached picture of what was left behind today. As mentioned before, we only get recyclables picked up twice a week, so in efforts to be sure they take everything each time they are here, please do your part in breaking down your boxes.
