Subject: Letter to Shareholders

TO: All Shareholders
December 2023

26

This is to notify you that Palm Worth has received by Certified Mail from the Town of Palm Beach Planning, Zoning, and Building Dept. the requirement that our buildings under Florida Statute 553.899 as a residential cooperative under Florida Statute 719

shall have a Milestone Inspection with completion of said inspection to be no later than December 31, 2024.

In anticipation of this requirement, we have been working with our Engineering Firm, Slider Engineering, to contract for this inspection. They are in the process of working up the Proposal for this Milestone inspection.

Please realize that the number of Florida condominiums and cooperatives required to have this inspection has generated a demand for Engineering and Architectural Firms.

We have been clients of Slider Engineering for over 10 years and many of our restoration projects were with Slider. Hopefully, this will be of benefit to Palm Worth.

I will inform you when we have an update on this Inspection.

Thanks,

Juanita Leary
Pres., Palm Worth
Board of Directors
