

TO: All Shareholders.

12 February 2024

The Board has voted to hire Squeegee Squad to soft wash clean the exterior of the South and North Buildings (as well as window clean both buildings' exterior windows inaccessible (porch & bedroom). This will be done once the re-roofing contract is completed which the latest Progress Report from Best Roofing is scheduled to be the end of February. The interior area of the buildings along the walkways will be cleaned in-house by Kevin and David. Cleaning of windows along walkways are the shareholders responsibility. Squeegee has us on their schedule for the first week of March. The importance of cleaning the exterior of the buildings of the roof tar debris, especially before the summer heat, became apparent!
