

To All Shareholders:
Beach Stairs Project

Waterfront has completed painting (white) the walls and railings. However the paint (brown) is on backorder. As soon as the paint is available Waterfront will return to complete the project. We will let you know when the Waterfront is coming.

The beach gate at the base of the staircase is now accessible and we now have a new lockset. The key remains the same.

Kevin is installing all new handrails and fasteners and light fixtures. Also, he is installing new light fixtures along towers 7 and 14.

We are working toward getting the east end of the building looking as good as the new patio.
