To All Shareholders,

Today seems like a good day to try my Window Committee hat on for size. A couple times a year it seems like an appropriate thing to do. Before you know it, most of us will be leaving for our summer retreats. What better time to consider and schedule window maintenance. I can site bylaws if you would like. Article 21, Section 2, paragraphs A & B, but I won't. Something to do with shareholder maintenance responsibility.

Anyway, think about it. Make it happen!!!! Take pride in what you own, and it will take care of you. Ultimately, it reflects who you are.

Respectfully,
Glenn Watson
Window Committee
